Subject: RE: Evidence for Accreditation - Standard IVB

Hi Becky,

Sorry, I meant to get back to you sooner. Every Board meeting includes a report from the president as well as written or presented reports on different programs and areas of the College. Additionally, a report of activities and information is included in the weekly Board update packet. The latter often also includes smaller written reports on programs, activities, or areas that are not included on the monthly Board meeting agenda.

The president also meets individually with each board member at least once a month, with the board chair and vice chair once a month to review the board meeting agenda, and then impromptu meetings with board members.

Hope that helps and is enough.

Katharine

Hi Katharine,

Hope your weekend is going well. When you have a chance, could you please provide me with a list of the reports that the president makes to the board? I don't need the actual reports, just a list.

Thank you!
