

Virtual Computer Lab

The SMC Virtual Computer Lab is a service that lets SMC students in certain classes access real SMC specialized computer labs over the Internet. You must be enrolled in an appropriate class for the current semester in progress. You cannot log on before the semester starts or after it ends.

Technical Support

Technical support is available from the **Student Information Technology Helpline (studentITHELP)**.

How to install and use the required app for your class:

Current students , Fall 2021.

Starting Winter 2022.

(Also for faculty and staff participating on testing the future deployment).
