Hello all!

Thank you to those of you who have sent me recommendation lists! If you haven't yet, please do. See the attached policy for general guidelines. More specifically:

- send me book recommendations from your area; include Title, Author, and Publisher. Do not include ISBN as that will vary depending on which site license we use
- make sure the books are at the appropriate level - grades 10 - 14, undergraduate, community college level and depending on the subject, professional
- I'm working to get a **Choice** subscription for the Library. This will allow us to search for good reviews to find titles, rather than trying to figure out titles then look for reviews on them. More news when I get any 📧👍
- read professional reviews (<https://www.kirkusreviews.com/>, <https://networks.h-net.org/reviews>, and don't forget, JSTOR!)
- check awards lists (<http://www.ala.org/awardsgrants/awards/browse/bpma/all/rtab?showfilter=no>)
- check websites for professional organizations in that field
