Hi all,

I hope you and your loved ones remain safe and well.

Regarding Curriculum, for the new course ETH ST 1 - Introduction to Ethnic Studies, for the Library portion, you have:

List of suggested materials has been given to Librarian No
Library has adequate materials to support course No

If the program has sufficient resources for the students' needs, then please answer Yes to the question if the Library has adequate materials to support the class.

The rationale is if the students won't be using the Library to research for the class, then essentially, the current collection is adequate because the lack of materials won't impede your students' success.

If the answer is No, please send me a list of suggested materials to add to the Library collection.

If you're okay with changing these answers, I can complete Library approval for them. *Please Respond All so Rachel can make the changes in Meta if you agree.*

Finally, I always appreciate current book recommendations (within the last 2 years) to supplement our collection in your discipline, if you would like to email titles to me.

Thank you, and be well,
bren
