**Writers Room – Fall 2021****Club Purpose:**

SMC's Writers Room is a club for students focused on the practice of writing. It provides a structured environment where students commit to putting words on the page during meetings, followed by a short discussion. We believe that a writers group is the perfect blending of an activity that often takes motivation to start, with the encouragement of working alongside like-minded writers. Our goal is to create a space where writers of all kinds come together to write because we know that getting started is often the hardest part.

## STEM

Science, Technology, Engineering, and Mathematics

### Astronomy Club

**Purpose:** We, the students of Santa Monica College, establish this club for the purpose of:

- furthering the knowledge and interest of students in the field of Astronomy
- permitting students to go beyond classroom instruction to further their understanding of the science by getting "hands-on" experience in the field
- undertaking several field trips throughout the semester to locations such as Joshua Tree National Park, Griffith Observatory, and other locals that allow students to experience firsthand the technology and expertise involved in celestial observation
- participating in fund-raising events to help inform the public about Astronomy
- participating in group projects focusing on topics of interest to STEM students
- informing students of lectures and other events of interest to STEM students
- raising awareness of the Astronomy club on campus
- gathering and engaging with other students with similar astronomical interests

## Robotics Club - Fall 2021

### Club Purpose:

The Robotics Club at Santa Monica College are a collective group of motivated individuals who come from a variety of educational backgrounds, all with a common interest in mind: love for science and engineering. Our main purpose is to design, build, and program robots that will compete in the World VEX U Robotics competition. Along this journey, we also encourage others within our surrounding community to pursue similar goals by teaching the fundamentals of engineering and science. Through robotics we hope to inspire young professionals to advance in science, math, and technology.
