Focus on students' end goals</li> <li>2. Design and decide with the student in mind</li> <li>3. Pair high expectations with high support</li> <li>4. Foster the use of data, inquiry and evidence</li> <li>5. Take ownership of goals and performance</li> <li>6. Enable action and thoughtful innovation</li> <li>7. Leader the work of partnering across systems</li> </ol> </li> <li><input type="checkbox"/> Other (specify)</li> </ul>
<p>Methods to Accomplish the Annual Action Plan and Anticipated Outcomes:</p> <p>This objective is in progress.</p> <p>A comprehensive five year Master Plan for Technology will identify next generation ways of supporting and implementing innovative/ responsive academic environments and district-wide technology.</p> <p>12/15/2017: Institutional Research announced availability of an IEPI Seed Grant to address the need for a Transformative Master Plan for Technology at December TPC meeting. This grant would provide funding up to \$200,000 for an external consulting group to assess and provide SMC with a five-year comprehensive technology plan.</p> <p>1/19/2018: Hannah Lawler and Marc Drescher drafted Letter of Interest (LOI) and presented to TPC.</p> <p>3/6/2018: Senior Staff reviewed LOI and unanimously supported. Dr. Jeffrey submitted LOI to IEPI.</p> <p>4/22/2018: Dr. Jeffrey was provided with an outline of the IEPI Partnership Resource Team (PRT) process.</p> <p>5/16/2018: Dr. Jeffery, Elaine Polachek and Marc Drescher met with the Project Director of IEPI to review the Partnership Resource Team process. An updated treatment of the LOI was submitted. Marc Drescher and Ramin Nematollahi were assigned as point persons to the PRT.</p> <p>7/3/2018: Work with Academic Senate President to develop a detailed treatment of our Area of Focus (The need for a Master Plan for Technology.).</p> <p>October–December: The IEPI PRT will conduct three SMC site visits. During these meetings, an Innovation and Effectiveness Plan will be drafted. The Innovation and Effectiveness Plan will include an application and agreement for a Seed Grant.</p> <p>February-April 2019: Once Seed Grant funds are received, SMC will engage with a consulting service to develop a comprehensive five-year Master Plan for Technology.</p>	
<p>Estimated Cost: \$125,000</p>	<p>Funding Source: <input type="checkbox"/> Existing <input checked="" type="checkbox"/> Potential: IEPI Seed Grant</p>
