- e. Debate series / Brown bag  
Series in the spring, modeled off the Flex Day activities  
Topics: GMO, Zoos, Energy, Organic / Industrialized food  
Science, Culture, Politics and Beyond: there may be a scientific answer but we need to go on. Open to students. Meet in advance, share sources / point counter point. Nate Brown advise the group, skeptics club
- f. Peer to Peer Counseling (Schwartz)
- g. Terry Tempest Williams, Refuge and Finding Beauty in a Broken World  
author / memoir / prairie dogs  
Symposium, Week of May 12th
- h. AS Report:  
AS Food coop: need advisor / faculty advisor  
Meetings 2nd and 4th Tuesday at 1.30pm @CEUS  
Recommendations from the EAC:  
Yvonne Ortega, nutrition science club advisor  
Business faculty needed.  
Seek representatives from local CoOps (Coportunity, SB Food Coop) and City of Santa Monica.  
Structural issues: you need to know exactly what and how you want to do. Consider homing it in the AS. How will this be sustainable beyond this year? Philosophically, we agree with the idea, but execution and sustain the idea requires staff / leadership / etc. Recommend strong affiliation with the AS, consider using the Organic Learning Garden as a yield producing source of produce.  
Investigate CSA distribution at SMC
- i. Distinguished Science Lecture Series:  
Jessica Kramp  
Thursday, Oct. 3rd, 11.15am in Sci 140  
Speaker established the shark sanctuary in the Cook Islands.
