

03/24/2016 ISC Meeting Minutes

Attendees: Shawn Jordison, Maria Erickson, Jenn Hsieh, Ellen Cutler, Ebrahim Jahangard, Bob Dammer

Meeting begins 9:30 AM

Minutes from 3/10/16 examined. Motion made by Ebrahim to accept minutes, seconded by Jenn, motion passed.

Committee goes over two spreadsheets of technology requests: Faculty Computer Requests and Departmental Technology Requests. Steve has divided the Faculty computer requests into two categories of "quick-pass-through" and "requires-some-thought". The committee focuses attention primarily on the "requires-some-thought" category, asking for additional information and discussion with requesting faculty in most cases.

The committee also studies Department Technology Proposals from Psychology, Design Technology, ESL, Math, and Modern Languages. Clarification is requested as far as actual number of additional/replacement computers needed in Psychology, and whether Design Technology's requests are already being addressed in a lab computer replacement project scheduled for next year. With meeting time running out, the remainder of Departmental Technology Proposals are set aside for discussion in next meeting.

Maria moves adjournment, Ebrahim seconds. Meeting adjourned at 11AM.
