

AR 4235 CREDIT FOR PRIOR LEARNING and CREDIT BY EXAMINATION (New AR)

The College will review its credit for prior learning policy every three years, publish in college catalog, admissions website and report particular findings to comply with Title 5, Section 55050 subdivision (l) to the California Community Colleges Chancellor's Office.

Credit may be awarded for prior experience or prior learning only for individually identified courses with subject matter similar to that of the student's prior learning, and only for a course listed in the catalog of the College. Said credit may be applied toward a local degree, IGETC, CSU GE or certificate of achievement, as appropriate. Awarding of credit may be made to electives for students who do not require additional general education or program credits to meet their goals. This ensures that the credits help advance students towards certificates or degrees.

Credits acquired by the examination or assessment methods below shall not be counted in determining the 12 semester units of credit in residence required for a degree. Credits acquired by examination or assessment shall not count as units enrolled for the term. Credits acquired by examination or assessment will be added to total units completed.

Students who have an educational plan and wish to satisfy a requirement by credit for prior learning assessment or evaluation must submit a Petition for Credit for Prior Learning obtained on the Admissions and Records website. Instructions will be provided on the form on the procedures students must follow for each particular method of awarding of credit.

Students should be aware that other colleges and universities may limit the use of credit for prior learning and credit by examination. Students are urged to consult with the college or university of interest.
