

Environmental Affairs Committee Update

The Environmental Affairs Committee is recruiting faculty to join them in their critical work centering climate change and sustainability at SMC. This year we are focusing on meeting the chancellor's Vision 2030 with greening the curriculum, we are building support across campus for SMC's climate action plan, and we are addressing the food desert on campus. The committee meets on the 1st and 3rd Thursday of each month from 1-2pm in MSB 351. We cannot do this work without partners across campus, please join us. For more information please contact the [Committee Chair](#).
