

Career Education Committee

2025–2026 Accomplishments

The Career Education Committee (CEC) reviewed and approved Perkins and Strong Workforce funding allocations, supported Career Education program development, and recommended moving forward with a third bachelor's degree. Additional highlights included Perkins Core Indicator training, work-based learning initiatives, AI professional development, regional faculty collaboration, and the annual Career Education Awards and Retreat.

Goals for 2026–2027

- Support Career Education programs through Perkins and Strong Workforce funding.
- Strengthen employer partnerships and expand work-based learning opportunities.
- Improve student completion, career readiness, and employment outcomes.
- Promote faculty professional development and innovative teaching practices, including AI.

Upcoming Events and Activities

The committee will continue hosting presentations highlighting Career Education programs, faculty professional development and funding opportunities, employer engagement, and student career readiness initiatives.
