

Legislative Committee

The Legislative Committee will monitor proposed and enacted federal, state, and local legislation affecting California community colleges, with particular attention to faculty roles and the 10+1 academic and professional matters. The Committee will keep the Santa Monica College Academic Senate and faculty informed of relevant legislative developments and welcomes additional faculty members interested in engaging with legislative issues that shape our work and participatory governance. In carrying out its work, the Committee remains nonpartisan and will not endorse or campaign for candidates or permit Senate resources to be used for such purposes.
