Hello Aaron,

Educational planning is a critical step in achieving your goals, whether it is to transfer, earn an associate degree, a certificate, or any combination of these! MyEdPlan will allow you to create an education plan reflective of your goals. You can also track your progress toward your goal as you meet major/program/degree requirements. You can come back and modify your education plan anytime on your own or with the assistance of a counselor, in person. It is critical you meet with counselors regularly to verify all is going according to plan and so you can be sure you are taking the classes you need to reach your goals. We are confident that as long as you keep track of your progress using MyEdPlan and meet with counselors regularly, you will definitely be the successful college student you came here to be!

Which Math should I take?

If you are unsure as to which math class to take, use the drop down menus below to see our best recommendation for you. Remember, this is just a recommendation and you should confirm it with a counselor. By default, this wizard assumes you are interested in an Associate or a Bachelor's degree.

Steps to use this Wizard:

1. Select the course you placed into or for which you are currently eligible.
2. Select the general area of your major.
3. Review "Our recommendation" section.
4. Add the class to your ed plan.

Note that in some cases, there will not be a recommendation available for a major. Selecting the "Any major" option may be the best choice. Give it a try!

Find our recommendation for

Your Placement

Math 28

Your goal

Any Associate or Bachelor's Degree

Your major

Computer Science or STEM major

Our recommendation

If it's likely that you're majoring in computer science, engineering, mathematics or one of the physical/natural/life sciences, then you should plan to take Math 32 or check with the Math Department Chairperson to see if you could qualify to take Math 2 (Precalculus). Placing into Math 28 and completing Math 32 with a C or better grade will meet the prerequisite for Math 2. Math 2 meets the prerequisite for the Math 7/8/11 calculus sequence.

FYI: Math 8 is the prerequisite for Math 10 (Discrete Structures), Math 11 (Multivariable Calculus), Math 13 (Linear Algebra) and Math 15 (Differential Equations). The Math Department recommends you complete Math 11 and Math 15 before enrolling in Math 13.

Add Course to Plan

Class Name: ANATMY 1

Planned Semester: Fall 2015

ANATMY 1, General Human Anatomy (4 units)
Transfer: UC,CSU; AA/AS Applicable
Prerequisite: ENGL 1 (C or better grade) (Enforced)
You have NOT met the prerequisite for Fall 2015

In order to add the above class to your ed plan, you must first add any prerequisite courses noted to your ed plan (and if necessary, the prerequisite to your prerequisite). Once you have done this, MyEdPlan will allow you to add this class. If you have completed the prerequisites at another college, you should see a counselor to evaluate your coursework and see if you qualify for a prerequisite waiver. Please refer to www.smc.edu/waivers for more information.

Skill Advisory: None

This course emphasizes developmental, comparative, gross anatomy as applied to various disciplines such as clinical medicine, anthropology, art, illustration, kinesiology and pathology in order to demonstrate practical and professional applications of anatomy. The laboratory experience includes individualized instruction in dissection of the human body. Students prepare seminars on specific anatomy topics for presentation to faculty

Clarify Educational Goal

Which type of university are you most interested in at this time?

- A University of California (UC) campus
- A California State University (CSU) campus
- Either a UC or CSU campus
- California private college or university
- Out-of-state college or university
- Undecided

For Your Information

Admission to the University of California is very competitive and you must satisfy many requirements—all of which, you can meet while at SMC. It is important that you meet with a counselor once you start classes so we can discuss these requirements in-depth. For now, this is what you need to know:

- A minimum of 60 UC-applicable units are required for transfer to the UC. Among these you will take courses to meet:
 - 1) general education requirements;
 - 2) major requirements; and
 - 3) possibly some electives.

Major Concentration in Associate Degree & Transfer

Tell us about your SMC Associate Degree Goal:

What general field of study are you interested in?

Accounting

SMC Degree requirement can be found online at SMC Associate Degrees.

Which major option are you interested in?

Accounting (AS)

Undecided: If you are undecided about an Associate degree major at this time, we suggest you select one of the Liberal Arts major options for now: Select Liberal Arts Option

Tell us about your Transfer Major Goal:

Which transfer major are you interested in?

- select transfer major -

Exact transfer major requirements can be found online at www.assist.org.

Major confidence check:

How confident are you about your major choice above?

- Very confident
- Somewhat confident

For Your Information

Accounting:

General accountants examine financial records of municipal, county, state, and federal agencies for compliance with laws. They record transactions, such as receivable, payable, payroll, property into a general ledger. Corporate accountants set up and design accounting-bookkeeping systems and procedures, risk management programs, tax law and finance methods, record financial transactions, and analyze and evaluate financial records for businesses. Their duties include interpreting financial information and preparing reports for business executives and government regulatory agencies. Advancement includes senior accountant, controller, treasurer, and chief financial officer positions.

What can I do with this type of major?

Faster Course Search functionality

The screenshot displays the MYEDPLAN course search interface. The top navigation bar includes the MYEDPLAN logo for Santa Monica College, a search icon, and utility icons for font size, print, share, help, and refresh. A left sidebar contains navigation links: My Profile, My Primary EdPlan, My Other EdPlans, New EdPlan, Course search, Resources, Help admin, and Feedback admin.

The main content area is divided into two panels:

- Search Filter:** This panel allows users to refine their search. It includes:
 - Search Type:** Radio buttons for "General Search" (selected) and "Assessment Test/Placement Waiver Eligible Classes Only".
 - Class Characteristics:** Checkboxes for "AA/AS Applicable", "CSU Transferable", and "UC Transferable".
 - Subject:** A scrollable list of subjects with "Biological Sciences" selected.
 - Class Name or Title Contains:** A text input field with the placeholder "enter search text".
 - Buttons for "Search" and "Reset filter".
- Course Search Result:** This panel displays the search results, showing three course entries:
 - ANATMY 1, General Human Anatomy (4 units):** Transfer: UC,CSU AA/AS Applicable; Prerequisite: ENGL 1 (C or better grade) (Enforced); Skill Advisory: None. Description: This course is an intensive study of the gross and microscopic structure of the human body including the four major types of tissue and their subgroups, and the following organ systems: integumentary, skeletal, muscular, circulatory, respiratory, digestive, urinary, reproductive, endocrine, nervous, and sensory. Functions of the organ systems are included at the introductory level to prepare students for a course in Human Physiology. Laboratory assignments develop the skills of observation, investigation, identification, discovery and dissection. The use of actual specimens, including cat dissection and observation of a human cadaver, is emphasized to assure that students learn the relative structure, functions, textures and variations in tissues not incorporated in models. Supplemental materials such as models, photographs, charts, videotapes, and digitized images are also provided. This course is required for students preparing for many Allied Health professions including, but not limited to, Nursing, Respiratory Therapy, Physical Therapy, Physical Education and Kinesiology Training, and Physician's Assistant and is a prerequisite for Human Physiology 3.
 - ANATMY 2, Advanced Human Anatomy (4 units):** Transfer: UC,CSU AA/AS Applicable; Prerequisite: ANATMY 1 (C or better grade) (Enforced); Skill Advisory: None. Description: This course emphasizes developmental, comparative, gross anatomy as applied to various disciplines such as clinical medicine, anthropology, art, illustration, kinesiology and pathology in order to demonstrate practical and professional applications of anatomy. The laboratory experience includes individualized instruction in dissection of the human body. Students prepare seminars on specific anatomy topics for presentation to faculty and other students. Guest lecturers and field trips may be included.
 - BIOL 2, Human Biology (3 units):**
