RECOMMENDATION NO. 1

SUBJECT: ACCREDITATION MID-TERM REPORT AND STUDENT LEARNING OUTCOMES

IMPLEMENTATION REPORT

<u>SUBMITTED BY</u>: Executive Vice-President

REQUESTED ACTION; It is recommended that the Board of Trustees accept the Accreditation Mid-

Term Report and Student Learning Outcomes Implementation Report.

<u>SUMMARY:</u> A Midterm Report is required by the Accrediting Commission at the halfway

point between comprehensive accreditation visits, and, for the first time, the Commission is requiring all institutions to submit a Student Learning Outcomes Implementation Report this year. For Santa Monica College, both

reports are due March 15, 2013.

The Board of Trustees received a preview of these documents at its Study Session on February 19, 2013. The Accreditation Mid-Term report includes the responses to the recommendations of the 2010 visiting accreditation team, and the College is required to report briefly on the status of all self-initiated plans included in the 2010 Institutional Self-Study. There is also a Reference Materials section for the report. This Student Learning Outcomes Report provides a brief narrative analysis and quantitative and qualitative evidence demonstrating the status of Student Learning Outcome (SLO) implementation. The narrative responses for the SLO Report were developed by the Academic Senate Joint Institutional Effectiveness Committee.

INFORMATION ITEM 5

SUBJECT: UPDATE ON STRATEGIC INITIATIVE – GRIT (Growth/Resilience/Integrity/Tenacity)

SUBMITTED BY: Executive Vice-President

SUMMARY:

The <u>GRIT</u> (Growth, Resilience, Integrity, Tenacity) Initiative was developed during the College's 2011-2012 Strategic Planning process, and launched on the Fall 2012 Opening Day. A case for GRIT can be found <u>here</u>. Its goal for 2012-2013 is to develop a plan to infuse GRIT into the work of the College and a plan to assess the impact of the initiative.

The GRIT Initiative facilitates student achievement. By fostering students' perseverance, sense of purpose, connection and engagement, the GRIT Initiative enhances a student's capacity to flourish academically and personally. The initiative focuses students on their non-cognitive skills like help-seeking, their metacognitive skills like the ability to think about their own thinking, and their sense of place and purpose. The initiative recognizes and develops students' strengths and competencies rather than their deficits.

Currently, the initiative has been organized into two strands: 1) resiliency and 2) purpose.

Resiliency

We seek to foster resiliency among our students as a way to enhance their completion of courses, programs and degrees. This strand will be supported by two efforts: a) Coaching Corps and b) valuing process over product. The first would be a new program at SMC. The latter would involve alterations to some of our existing college processes.

<u>Coaching Corps</u> is a program currently being piloted at Cerritos College. The program is made up of student-identified volunteers who are trained to support students through the challenges of college. Cerritos created a manual that serves to train and guide coaches in how best to help students, providing an overview of the college experience, ways to help keep students motivated, techniques for helping students over key hurdles, and some useful activities coaches can use. For some of us, our parents or a sibling may have served in this role. However, many of our students may not have anyone in their lives who would know how to do this. This highly scalable program will provide that training. We are seeking to develop and adapt the <u>attached manual</u> for use at Santa Monica College.

Currently educational research indicates that rewarding students for their efforts (process), not just their grades (products) will enhance their capacities to achieve their goals. For instance, if students are assured that, even very late into the semester, they can still get an A or a B if they keep doing the work and applying themselves, they are more likely to persevere. On the other hand, if students find that a bad grade on the first test dooms them to a C or worse, they are very likely to drop the class. We are seeking to encourage all faculty members to embrace pedagogical values consistent with the first scenario rather than the second. We are using flex day presentations to provide models for best practices. For instance,

during flex day in March 2012 we will offer a breakout called "GRIT in the Curriculum". This breakout will feature some of SMC's best teachers, Terry Green, Janet Robinson, Christine Schultz and Muriel Walker Waugh, discussing how they integrate principles of resiliency and perseverance into the curriculum and classroom to enhance their students' academic and personal achievement. Second, we are seeking to integrate the values of resiliency and perseverance into the curriculum by including related questions in forms used for the Curriculum and Program Review processes. For example, we may include a new "check-off" for new and revised courses that addresses whether course structure and methods of assessment teach and reward resiliency and perseverance.

Purpose

We recognize that when students know why they are in college or a particular course, they are better able to overcome challenges and take on the long-term process that is college. Like resiliency, a personal vision or purpose will enhance a student's completion of courses, programs and degrees. This strand will be supported by the effort to incorporate a new competency under ILO #1. In support of this goal, faculty may, for instance, run a brief pre- and post-class survey, asking students why they are taking a class or what it is for. For example, Christine Schultz and Eric Oifer piloted a potential question in the Winter 2013 classes. Students were asked to respond to the following question: "Some students know exactly why they are taking a particular class while other students may have little or no idea why they are taking it. What about you? In terms of your bigger life picture, what is this class for? Because an honest statement is what is being sought here, please feel free to answer in any way you want and saying that you do not know how this class fits into your larger life picture is an option." Dr. Schultz and Dr. Oifer will bring this idea to the Department Chairs for a discussion of a larger pilot.

Additionally, as with the resiliency strand, the purpose strand may be supported with a new Curriculum "check-off" for new and revised courses that addresses whether course objectives include helping students identify the purpose for studying the course material.

Related Instrument

Coincident with the launching of SMC's GRIT Initiative, the Educational Testing Service piloted a new tool it developed to measure non-cognitive skills. In fall of 2012, this instrument, called SuccessNavigator, was administered to students enrolled in COUNS 20 classes. Participating faculty and administrators met prior to the beginning of the Spring 2013 semester to discuss the results. A summary of the report is linked here. Thirteen Counseling 20 faculty members are continuing to use SuccessNavigator this spring. This data on non-cognitive skills will be used to shape future course content. Also, broader discussions of this instrument will continue with the goal of determining whether and how it can be useful to SMC as we seek to infuse GRIT and enhance student success.

INFORMATION ITEM 6

SUBJECT: ACTUARIAL STUDY OF RETIREE HEALTH LIABILITIES, 2012 UPDATE

<u>SUBMITTED BY:</u> Vice-President, Business/Administration

SUMMARY:

In accordance with the Governmental Accounting Standards Board (GASB) Statements No. 43 and 45, the District has identified its future liabilities for Other Post-Employment Benefits (OPEB) expenses through an analysis by an independent actuary. The District engaged Total Compensation Systems, Inc. (TCS) to analyze liabilities associated with its current retiree health program as of June 30, 2011. Geoff Kischuk, TCS, will provide a summary and information on the actuarial study, including the various assumptions for mortality rates, inflation, interest rates, service period, etc. According to most recent actuarial report, the District's Actuarial Accrued Liability (AAL) as of June 30, 2011 is \$88,692,776. GASB No. 43 and 45 do not require full funding of the OPEB liability; however, GASB No. 43 and 45 do require that the District recognize the liability on its financial statement. Currently, the District's assets in an irrevocable trust are \$2,160,732.

In addition to GASB 43/45, the Accrediting Commission for Community and Junior Colleges (ACCJC) Standard III.D.3.c requires that an "institution plans for and allocates appropriate resources for the payments of liabilities and future obligations, including OPEB...." A survey of other community college districts shows a tremendous variance on their OPEB funding situations. Some districts are fully funded, others have no monies set aside for their OPEB liability, while the majority of colleges have set some monies aside. To fund the OPEB liability, most colleges have either budgeted a level percentage of salaries, taken a percentage of COLA, transferred a lump sum from the general fund or reserves, and/or calculated a "total compensation" package. There is also a wide variance on the amount of the total OPEB liability due to the different number of employees and the different health benefit plans. The colleges with the larger OPEB liabilities have the more generous health benefit plans.

SUBJECT: AWARD OF BID – INFORMATION TECHNOLOGY RELOCATION

<u>SUBMITTED BY:</u> Vice-President, Business/Administration

REQUESTED ACTION; It is recommended that the Board of Trustees award the bid to the lowest

responsive bidder for the Information & Technology Relocation project.

BidderAmountBernards Brothers, Inc.\$12,392,000Pinner Construction\$13,377,000

FUNDING SOURCE: Measure AA

<u>COMMENT</u>: The Information Technology Department is currently located on the third floor

of Drescher Hall. After the 1994 Northridge Earthquake, the Information Technology Department was quickly relocated from a damaged building. The infrastructure necessary for a facility with multiple computer servers was not possible and proper facilities are not available to house the many servers that the college relies on. Meanwhile all the college's other technology resources have been located at the south end of the Library in the Media Center. This project will consolidate all the technology in one location at the south end of the Library and open up the third floor of Drescher Hall for future academic

use.

The project will consist of 14,858 square feet of new construction and 11,229 square feet of remodeling of the existing Media Center. Some of the Media Center functions that are most used by faculty and staff will move to the new building. A new area for faculty development, the Teaching/Learning Center, will also be housed in the new building. The project will have rooftop solar

panels and is expected to be LEED certified at the Gold level.

RECOMMENDATION NO. 8

SUBJECT: CONTRACTS FOR MARKETING, COMMUNITY OUTREACH AND RECRUITMENT

<u>SUBMITTED BY</u>: Senior Director, Government Relations/Institutional Communications

REQUESTED ACTION; It is recommended that the Board of Trustees approve contracts for

Marketing, Community Outreach and Recruitment for 2012-2013.

now central to the contracts with KPWR and KROQ Multimedia.

SMC has used radio and outdoor advertising for student recruitment continuously since 1986. However, for the last three years, SMC has suspended its on-air recruitment due the State-mandated course offering reduction and the resulting student demand for the reduced number of seats. Prior to the suspension of on-air recruitment, contracts for radio advertising had been reduced from \$600,000 to \$300,000. A \$200,000 expenditure is recommended to support 2013-2014 student recruitment. Internet/social media services are

Traditionally, SMC recruits both internally (continuing students) and externally (new and returning students). For Fall 2012, 60 percent of SMC's credit students were continuing students.

SMC is now at a historical high in terms of relying on internal recruitment. Fall 2012 reflects the highest percentage of continuing students for at least the past 21 years (the Chancellor's Data Mart only goes back to Fall 1991) and this is likely the highest percentage ever for SMC. For a recent comparison, 51 percent of SMC's credit students were continuing students in Fall 2007.

Along the same lines, the number of new students in Fall 2012 (9,728) is the lowest total in the last 15 years since 1998, when SMC had 4,000 fewer students. For a recent comparison, 11,020 students were new in Fall 2007.

Of additional concern, overall student demand is declining. For Spring 2013, the class seat fill rate is about 94 percent. This compares to a fill rate of just above 100 percent two years ago and a fill rate of about 90 to 91 percent in the years just prior to the state funding crisis.

Lastly, expectations are that SMC's workload requirement (the number of students to serve, as measured by FTES) will increase by two percent in 2013-2014.

To meet Summer 2013 and Fall 2013 enrollment targets, SMC will need to maintain a high class seat fill rate (in order to achieve a balanced budget) and will also need to recruit more new and returning students than are currently enrolling. SMC proposes to resume on-air and Internet/social media student recruitment along with associated outdoor advertising.

Comment:

Only radio can deliver large segments of the 18-24 year-old demographic in a geotargeted manner. Now, each station provides digital and social components, as well as street teams to accompany the on-air message. Power and KROQ remain two of the top branded stations in the market reaching this demo. Their live events literally sell out in minutes and both have worldwide name recognition, which gives them a leg up in all social engagement.
