MASTER PLAN FOR EDUCATION 2001-2002 REVISION
PLANNING ISSUES

STUDENT SUCCESS

- *Evaluate the availability and adequacy of institutional support services to ensure student success*

- *Use student outcome data to research, develop, and evaluate programs, policies, and services*

- *Review the policies and practices of enrollment services*

- *Establish campus-wide review systems to ensure fiscal accountability and departmental/program efficiency*

- *Evaluate and implement recommendations developed by the Presidential Retention Task Force*

ACADEMIC EXCELLENCE

- *Train students to be competent evaluators of all current and future information delivery systems*

- *Define and impart the skills and values necessary for students to function in society*

- *Research and develop new teaching and information delivery methodologies*

- *Analyze and develop assessment, accountability, and evaluation methodologies*

- *Research, develop, and revise academic programs in response to college and community needs*

- *Develop innovative programs to increase the quality of education while maintaining fiscal responsibility*

- *Expand staff development opportunities*

MASTER PLAN FOR EDUCATION 2001-2002 REVISION
PLANNING ISSUES

COMMUNITY OF MUTUAL RESPECT

- *Foster greater communication among campus groups and between the campus and the community*

- *Promote tolerance and understanding about diverse cultures and groups*

- *Develop strategies to effectively mediate conflict*

- *Address concerns about intellectual property issues*

- *Expand staff development opportunities*

- *Clarify and increase awareness of campus policies and procedures*

- *Demystify the budget process*

EFFECTIVE USE OF TECHNOLOGY

- *Achieve more effective use of technology by improving and increasing technical support services*

- *Streamline workflow through automation*

- *Meet the needs of students and employees by integrating current technology into all learning and working areas*

- *Improve, enhance, and implement planning efforts*

COMMUNITY PARTNERSHIPS

- *Nurture positive relationships and partnerships with neighbors*

- *Explore additional avenues of community fundraising to support community outreach efforts*

- *Expand opportunities for the College to become further engaged with the community*

- *Study and assess the community's needs for continuing education and lifelong learning*

SUPPORTIVE PHYSICAL ENVIRONMENT

- *Increase parking and transportation options and encourage students, staff, and faculty to use them*

- *Make it easier for students and staff to participate in activities at multiple sites*

- *Involve the campus community in helping to keep the campus neat and clean*

- *Increase and better utilize meeting spaces, offices, study spaces, classrooms, and labs*

- *Help students identify, locate, and access student services*

- *Use environmentally responsive elements in college facilities and projects*

- *Provide access to necessary services and support at all sites*

- *Originate inventive techniques to maximize fiscal resources*
