MAJOR ITEMS OF BUSINESS

**RECOMMENDATION NO. 4**

**SUBJECT:**                   **2007-2008 SABBATICALS**

**SUBMITTED BY:**           Chair, Board of Trustees

**REQUESTED ACTION:**   It is recommended that the Board of Trustees approve eight one-semester sabbaticals for full-time faculty for 2007-2008 as follows:

Mary Colavito, Spring 2008 (Life Sciences), will complete an online course for instruction in using bioinformatics resources and explore bioinformatics databases and search tools used for gene identification and comparison. The knowledge gained will enrich the material presented in biology courses and enable Professor Colavito to design guided search strategies so students can investigate the realm of bioinformatics.

Roman Ferede, Spring 2008 (Physical Science), will conduct chemical research on extraction and analysis of carotenoids in fruits and vegetables at the International Institute of Tropical Agriculture, and write a handbook on this work to be used by SMC chemistry students. Additionally, Professor Ferede will begin work on a grant proposal to increase instrumentation in organic and biochemistry laboratories at SMC.

Kathy Flynn, Spring 2008 (Outreach/Counseling), will travel to Guatemala, El Salvador, Belize, and Mexico in order to obtain information from those countries on basic skills standards in primary and secondary schools, as well as information on their testing processes for placing students in post-secondary schools. She also will obtain information on campus resources available to low achieving and second language students. This will enable SMC to better counsel and place the large number of SMC students from Latin America and evaluate their previous education.

Josh Kanin, Fall 2007 (Communication), will complete the research for and write the first draft of a book that will contribute to intellectual film literature. In focusing on the 50-year Hollywood careers of the husband-wife writing teams Fay/Michael Kanin and Garson Kanin/Ruth Gordon, the study will explore the central role of screenwriters in the filmmaking process and their relationship to other key film professionals. The book will provide instructors and students in Film Studies with an informative and supplemental textbook for classes in American film history and cultural studies.

Makoto Nishikawa, Fall 2007 (Modern Languages), will take graduate courses and seminars at University of Shizuoka in Japan in theoretical linguistics. Professor Nishikawa will use the sabbatical to increase his knowledge of Japanese linguistics and language pedagogy, create a database of digital slides that incorporate Japanese characters, gather cultural artifacts to be used in the class, and gain insights into contemporary issues in Japanese culture and society.

Eileen Rabach, Spring 2008 (Social Sciences and Philosophy), will do independent research leading to the publication of a reader that will supplement the 2008 (second edition) of *Macroeconomics*, a textbook by Paul Krugman. The reader will fill a “policy debate gap” characterizing introductory economic textbooks. This reader will provide students with a slate of controversial case studies to analyze utilizing introductory macroeconomic theory, and stimulate student discussion and debate over issues that profoundly impact them.

Walter Sakai, Fall 2007 (Life Sciences), will travel to Costa Rica to band birds and continue work on the ageing and sexing of resident tropical birds, as well as the neotropical migrants. He also will analyze data from bird banding stations he operates in California with the goal of publishing his findings. This work will hone Professor Sakai's bird banding skills, and enable him to pass this knowledge on to students who work with him these projects and take biology courses.

Edith Spain, Spring 2008 (Education/ECE), will immerse herself in the Reggio Approach to early childhood education by working as an intern within the Marine Park/17<sup>th</sup> St. Growing Place and the First Pres. Preschool on Second Street. Through documentation panels, videos, photos, PowerPoint, etc., Professor Spain will use her knowledge to enhance SMC's Early Childhood Education curriculum and potentially to supplement pedagogical approaches used by faculty in other SMC departments, as well.

COMMENT: The Joint Academic Senate Sabbaticals/Fellowships Committee is recommending that the Board of Trustees approve the sabbaticals listed above. The collective bargaining contract with the Faculty Association requires the District to fund the equivalent of eight semesters of sabbaticals each academic year.

MAJOR ITEMS OF BUSINESS

**RECOMMENDATION NO. 6**

**SUBJECT:**                   **RECEIPT OF PERSONNEL COMMISSION PROPOSED  
2007-2008 BUDGET**

SUBMITTED BY:               Superintendent/President

REQUESTED ACTION:       It is recommended that the Board of Trustees acknowledge receipt of the 2007-2008 proposed budget for the Santa Monica Community College District Personnel Commission. The Personnel Commission Budget will be discussed as part of the District's regular budget process.

SUMMARY:                   The total budgeted amount is increased over last year's budget in the amount of \$9,400 for personnel operation related software. This amount will provide the ability to track recruitments more accurately, perform calculations related to the testing process and provide reports. This is the only increase in the entire budget. All other increases have been accommodated by corresponding decreases in other line items.

The salary for the Director has been increased to accommodate the hiring of the new Director of Classified Personnel, but total salaries remain at the same amount budgeted for last year.

The consultant and legal budgets remain at the same figures used in last year's budget although some accommodations by making account transfers within the Personnel Commission budget had to be made this fiscal year to accommodate increased consultant fees and increased legal and advertising fees. These increased charges for this fiscal year are not anticipated during the 2007-08 year because a new Director has been hired instead of using consultant services to pay charges for an acting director and an executive search firm. Advertising costs will be less because the department has placed more emphasis on internet advertising, targeting other colleges and universities, the Chancellor's website and local newspapers. We do not anticipate using the Los Angeles Times classified services.

The amount of \$15,000 included in the consulting budget should provide the funding to continue the services of the Hay Group in the implementation of the reclassification and compensation study.

Other changes are minor and include reducing off campus printing by \$500 and including that amount in meals and catering for raters. Previously these funds came from petty cash and it seemed more accurate to reflect this amount in the budget. The practice is to provide a continental breakfast and/or lunch to raters who serve the college without fees.

COMMENT:

The proposed budget will be presented for formal action at the next regular session meeting of the Personnel Commission in May. An invitation will be sent to the Board and District administration, and the leadership of CSEA to attend and present their views.

**SUBJECT:** **GUARANTY BY SANTA MONICA COMMUNITY COLLEGE DISTRICT FOR STREET IMPROVEMENTS PROPOSED ALONG AND ADJOINING 3171 BUNDY DRIVE**

SUBMITTED BY: Superintendent/President

REQUESTED ACTION: It is recommended that the Board of Trustees guaranty that the street improvements proposed along and adjoining 3171 Bundy Drive will be completed in accordance with plans reviewed and approved by the City of Los Angeles and authorize the Superintendent/President to execute such documents as are necessary to secure the permit.

COMMENT: The Bundy Campus Master Plan provides for improving access to the campus from Bundy Drive by widening Bundy Drive to provide a southbound deceleration lane, by providing a new northeast driveway, by providing a half-signal into the campus for vehicles traveling northbound on Bundy Drive, and miscellaneous improvements. These street improvements require a permit from the City of Los Angeles, including the posting of a bond. The amount of the bond would be \$200,000. Because the improvements are being carried out by the District, a public agency, the City of Los Angeles will accept a guaranty by the Board of Trustees in lieu of the bond requirement. Once the permit is obtained, the District will bid the work and require that the contractor provide an appropriate bond to guaranty completion of the work.

NOW, THEREFORE, the Board of Trustees of said District hereby resolves that it is the intent of this Board of Trustees to dedicate to the City of Los Angeles an easement for public street purposes over, along, upon and across that portion of real property in the City of Los Angeles, County of Los Angeles, State of California, belonging to said District, and more particularly described as follows and in Exhibit "A":

THE SOUTHWESTERLY 2.00 FEET OF THE NORTHEASTERLY 12.00 FEET OF LOT 1 OF TRACT NO. 17636 IN THE CITY OF LOS ANGELES, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 482, PAGE 33 OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

BE IT FURTHER RESOLVED that a public hearing be held by this Board at the Board Room (Business Building Room 117), 1900 Pico Boulevard, Santa Monica, California, 90405, on June 11, 2007, 7:00 p.m., at which time and place all persons interested may appear and show cause, if any they have, why said dedication should not be made.

BE IT FURTHER RESOLVED THAT NOTICE OF THE ADOPTION OF THIS Resolution and of the time and place of holding said meeting shall be given by posting copies of said Resolution in three (3) public places within said District not less than ten (10) days before the date of said meeting and by publishing the notice of adoption of this Resolution once not less than five (5) days before the date of said meeting in the Daily Press, a newspaper of general circulation, published in said District, cost of said publication to be paid by District.

COMMENT:

This action adds two feet of width to an existing easement possessed by the City of Los Angeles. The easement provides for the construction of street improvements along the eastern side of the Bundy Campus. The Bundy Drive roadway will be widened to the Bundy Campus property line. The sidewalk and traffic signal equipment will be sited on the existing easement on the District property. This action extends the easement two feet to the west in order to provide the City of Los Angeles with the required right-of-way width for the road designation (a total of 12 feet). California Education Code Sections 81310 through 81315, Dedication of Real Property, authorizes the District to dedicate an easement to another public agency without consideration for public street or highway purposes. The law requires that Board of Trustees, by a two-thirds vote, adopt a resolution of intention to include a time not less than 10 days after adoption for a public hearing by the Board of Trustees. The adopted resolution must be posted in three public places in the District not less than 10 days before the date of the public meeting and be published not less than 5 days before the meeting in a newspaper of general circulation in the District.

**RECOMMENDATION NO. 11**

**SUBJECT:**                   **RESOLUTION IN SUPPORT OF THE COMMUNITY COLLEGE GOVERNANCE, FUNDING STABILIZATION AND STUDENT FEE REDUCTION ACT**

SUBMITTED BY:               Chair, Board of Trustees

REQUESTED ACTION:       It is recommended that the Board of Trustees adopt the following resolution in support of the Community College Governance, Funding Stabilization and Student Fee Reduction Act.

WHEREAS, California Community Colleges serve 2.4 million students annually through a system of 72 locally-established and governed community college districts with 109 colleges within a statewide system;

WHEREAS, California Community Colleges need stable funding, predictable student fees, local control, and the ability to provide effective leadership for the system of 109 colleges;

WHEREAS, the California Community College Initiative (officially known as the Community College Governance, Funding Stabilization, and Student Fee Reduction Act) would ratify the bilaterally-governed community college system by placing it in the State Constitution, thereby securing local governance while enhancing state leadership;

WHEREAS, the California Community College Initiative would provide the local community colleges with a secure, stable source of funds that is tied to community college enrollment growth, and thus stop the annual competition between K-12 and community college districts for Proposition 98 funding without harming K-12 schools;

WHEREAS, the use of the actual community college enrollment growth figure would avoid the artificial funding cap that would otherwise be imposed on community colleges over the next ten years because of declining K-12 enrollment;

WHEREAS, the California Community College Initiative has qualified for the February 5, 2008 statewide election;

WHEREAS, the California Community College Initiative will provide the Santa Monica Community College District with \$54 million in additional funds over the next five years;

WHEREAS, the California Community College Initiative would not threaten funding for K-12 education in California because primary and secondary education would retain a separate funding mechanism tied to its growth;

WHEREAS, the California Community College Initiative would end the “zero-sum” game of the Proposition 98 split, which has resulted in shifting funds from community colleges to K-12 schools under the current provisions of Proposition 98;

WHEREAS, the California Community College Initiative would ensure that promises made by the Legislature are kept with a property tax guarantee;

WHEREAS, the California Community College Initiative funds the increase to community colleges over the next ten years through natural growth in the state's general fund, without raising taxes;

WHEREAS, the California Community College Initiative reduces student fees to \$15 to make them stable and predictable as well as consistent with personal income, and prohibits the Legislature from increasing fees in the future by more than the change in per capita personal income;

WHEREAS, the California Community College Initiative would eliminate the possibility of mid-semester fee increases and guarantee that students will have at least 60 days' notice before any fee increase takes effect;

WHEREAS, the California Community College Initiative ensures that fee revenue stays with the community colleges for the improvement of education, instead of being diverted to other state programs;

WHEREAS, the California Community College Initiative would allow the Board of Governors and Chancellor to hire the senior staff professionals currently appointed by the governor, and thus have the same authority as that provided to the UC President and CSU Chancellor;

WHEREAS, the California Community College Initiative includes provisions in the state constitution for locally-elected governing boards accountable to voters and for a statewide chancellor hired by a board appointed by the governor;

WHEREAS, the California Community College Initiative allows locally-elected governing boards to overturn unreasonable and costly state regulations by a two-thirds vote; and

THEREFORE, be it resolved, that the Board of Trustees of the Santa Monica Community College District supports the Community College Governance, Funding Stability, and Student Fee Reduction Act.

**RECOMMENDATION NO. 13**

**SUBJECT:**                               **RESOLUTION IN SUPPORT OF SB 840, THE CALIFORNIA UNIVERSAL HEALTHCARE ACT**

**SUBMITTED BY:**                       Chair, Board of Trustees

**REQUESTED ACTION:**               It is recommended that the Board of Trustees approve the following resolution in support of SB 840 (Kuehl), the California Universal Healthcare Act.

Whereas, there is a strong link between healthy children and student achievement, and

Whereas, the lack of affordable health care is a crisis of growing proportions in California and in the nation as a whole; and

Whereas, skyrocketing health care costs are creating serious problems for employers and workers by undermining wages and pensions, escalating the numbers of uninsured and underinsured, placing a significant strain on public health and public dollars, and contributing to economic stagnation; and

Whereas, health plans and insurance companies have reaped enormous profits from the premiums they established, yet they have failed to stabilize costs and develop reliable base standards of services delivered; and

Whereas, even when health insurance coverage is available, individuals and health care providers face a sometimes bewildering array of programs, out-of-pocket costs and administrative hassles that hinder the delivery of effective health care; and

Whereas, previous, piecemeal approaches have not achieved goals of universal, comprehensive, high quality, effective and affordable health care; and

Whereas, Californians can no longer afford to write a blank check to a health care industry or intermediaries that are unaccountable to any public scrutiny or input; and

Whereas, a 2005 analysis of the proposed California Universal Healthcare Act, conducted by the Lewin Group, has confirmed that passage of the Act will allow Californians to receive effective and comprehensive health care, while reducing the costs borne by individuals, school districts, government and by business;

Now, therefore, be it resolved that the Santa Monica Community College District Board of Trustees affirms its support for SB840, the California Universal Healthcare Act.

##### Reports provided to members:

###### Measure U

###### Measure S

###### Bond Sales/Expenses Report

##### Measure U Projects:

- (J) Music Department at Madison, (K) the Liberal Arts Replacement South (HSS - History and Social Sciences) Building, and the (L) Shuttle Replacement Lot are currently in construction and will be completed by summer., 2007.
- (M) North quad: This project is at the DSA (Department of State Architect) for approval. It is probably a one-year project.
- (O) The Student Services Building has been approved by the State for 50 percent funding; the other 50 percent will come from Measure U funds. The District is in the process of selecting the architect. The project will be a couple of years in planning and approvals before construction begins. All student services will be housed in this building and will be on the footprint of the Music Department, Concert Hall and Amphitheater.
- (P) Science Complex Addition: There are no more Measure U Funds, but the State has encouraged the District to apply for funding for this project.
- (T) 14<sup>th</sup> and Pico Project: This project is currently on hold. The District was directed by the Board of Trustees to work with the YWCA about a joint project on the property.

##### Measure S Projects

- (#1) Corsair Field: This project is being looked at in conjunction with the (#4) Replacement Health, Fitness, PE, together with the potential for underground parking. The costs are incredibly high and beyond budget, so the District is in the very preliminary stages of trying to come up with an affordable project to serve the needs of the campus, the physical education department and the community.
- (#1-A) Athletic Fields Phase I, John Adams: Planning is completed and the project is in DSA for approval.. Construction will probably start in summer, 2008.
- (#2) Performing Arts Complex (Madison): Construction is progressing on this very complex building. The original bid was \$30 million, but the length of construction and the complexity of the building have increased costs. When completed, it will be a spectacular building able to handle any type of major performance.
- (#3) Career Opportunity Center: In February, 2007, the Board of Trustees approved the Bundy Campus Master Plan, which includes the replacement of the existing two-story building with a structure that will house the Career Opportunity Center. As part of the Master Plan, a traffic signal will be installed at Bundy and the District has agreed to create a new driveway on the north side of the property.

Bond Issue

The District issued a \$12 million bond for Measure U. The District also refinanced Measure S which will in the long run save the taxpayers \$10 million and generate an additional \$8 million for construction.

The District received \$4 million from the City of Santa Monica Redevelopment funds for the Liberal Arts Earthquake Replacement project. Other funding for this project will come from FEMA and Measure U.

**5. INFORMATION** – Expiring terms of members of the Citizens’ Bond Oversight Committee
