Provider: Jemma Blake-Judd

Amount: \$350

Term of Contract: April 21, 2006

Funding Source: Title V Grant

Summary: Ms. Blake-Judd led a workshop on Student Learning Outcome models used at Mt. San Antonio College with an emphasis on assessment. The workshop was informational and hands-on, with feedback being given to the participants (SMC SLO Task Force and other interested faculty) on their SLO drafts.

This workshop was part of the professional development component of the Title V grant. All faculty were invited to submit proposals that would contribute to their professional development while meeting the objectives of the Title V grant for first year students.

This workshop to look at student learning outcomes was designed to improve learning strategies, particularly for students on probation. Our work as a Hispanic Serving Institution is to provide life opportunities through education to students who historically have been at risk. In a large part our success will be tied to our commitment to the improvement of our classroom instruction.

2-A CONSULTANTS FOR TITLE V GRANT *(continued)*

Provider:	Joseph L. White, Professor in the Social Science Department at University of California, Irvine
Amount:	\$3,500
Term of Contract:	May 11, 2006
Funding Source:	Title V Grant, First Year Institute
Summary:	Mr. White will lead an all day workshop on the topic “ The Browning of America: Implications for Diversity in Higher Education.” This will be an interactive presentation that will address what the college should look like in the 21 st century as we move toward the browning of America and how can the college be a more inclusive, inviting and welcoming place within the institution and community beyond it walls.

This workshop was part of the professional development component of the Title V grant. All faculty were invited to submit proposals that would contribute to their professional development while meeting the objectives of the Title V grant for first year students.

This proposal linked to changes in the classroom and is tied to cultural sensitivity in the classroom. The day’s events (consisting of a cultural sensitive workshop and teaching exercises) speaks to the core of the Title V grant – that is, exploring new ways of approaching ethnic minorities in the classroom and will help faculty to understand the reality of minorities entering institutions of higher education.

For the past 42 years, Dr. White has enjoyed a distinguished career in the field of psychology and mental health as a teacher, administrator, clinical supervisor, writer, consultant, and practicing psychologist. He is currently Professor Emeritus of Psychology and Psychiatry at the University of California, Irvine, where he spent most of his career as a teacher, supervising psychologist, mentor, and Director of ethnic studies and cross-cultural programs.

Comment: The Adopted Budget needs to be amended to reflect the totals of the departmental budgets. The current system of the Los Angeles County Office of Education requires Board approvals each month for the budget adjustments that in the past would be done with an annual adjustment. Only the net amount of the transfers in or out of the object codes is shown. In addition to the budget adjustments, transfers result from requests by managers to adjust budgets to meet changing needs during the course of the year.

RECOMMENDATION NO. 18

SUBJECT: **2006-2007 SABBATICALS**

SUBMITTED BY: Superintendent/President

REQUESTED ACTION: It is recommended that the Board of Trustees approve one-semester sabbaticals for the following full-time faculty for 2006-2007:

- Cary Childress, Design Technology (Spring 2007): Professor Childress will complete a formal study/creative project to 1) return to the classroom and complete three web page design classes; 2) use these new skills in web page design to design and implement a program website for the Interior Architectural Design Program that includes outreach and recruitment information, as well as examples of student work; and 3) produce an entry-to-exit student tracking mechanism that will be used to assess the program services and results.
- Georgia Farber, Health Sciences/Counseling (Spring 2007): Professor Farber will use her sabbatical to increase her knowledge of best practices stress reduction programs and techniques and use these new skills to develop two stress reduction courses. This sabbatical will benefit the students she counsels in the Disabled Students Center, the future nurses in her Health Science courses, as well as other SMC students, who have difficulty coping with the multiple stressors in their lives that can negatively impact their educational pursuits.
- Oriana Kim-Rajab, Life Sciences (Fall 2006): Professor Kim-Rajab will take a Professional Development/Independent Research sabbatical to increase her knowledge of Problem-Based Learning, a student-centered teaching strategy used extensively at the graduate school level, but with beneficial applications at the undergraduate level as well, particularly in the sciences. The long-term outcome of this sabbatical is to introduce PBL in SMC's biology curriculum with the goal of increasing student success in the sciences.
- Bill Lancaster, Design Technology (Spring 2007): Professor Lancaster will use his Creative Project sabbatical to develop a new functional typeface design that will be shared with the campus community upon completion. Through this sabbatical, he will further his personal knowledge of typography and type design, which he can then disseminate to his students.
- Lyle Nichols, Life Sciences (Fall 2006): Professor Nichols' Independent Research/Field Study sabbatical has two distinct, yet interdependent, purposes, including 1) to conduct independent research on the effects of climate change on protected natural habitats for use in his biology classes at SMC; and 2) to increase his mastery of digital photography and digital photo enhancements. Professor Nichols will photographically document the effect of climate change by comparing photographs of specific areas taken over time.
- Vicki Rothman, Counseling (Fall 2006): Professor Rothman will examine the reasons why students are undecided about their academic majors and develop a program to help students reduce their indecision. This project will include developing new methods for identifying first-time students who are undecided about their majors and creating strategies for helping these students select a major leading to a career.

- Esau Tovar, Counseling (Spring 2007): Professor Tovar's Independent Research sabbatical will determine how and to what degree students' perceptions of mattering and marginality, specifically related to student enrollment at SMC, affects their ability to succeed at SMC. Based upon his findings, he will present recommendations for strengthening SMC's supportive learning environment to relevant constituencies, such as instructional and counseling faculty, administrators, and front-line staff.
- Paul Wissmann, Life Sciences (Fall 2006): Professor Wissmann will utilize his sabbatical to pursue several professionally beneficial projects, which will expand and enhance teaching and learning in the sciences, including 1) to create a media resource library for the Life Sciences Department that sorts and condenses existing learning materials and thus facilitates faculty use of these materials in their classrooms; 2) to expand the Science of Life Exhibition in the new Science Complex; and 3) to explore the possibility of perfecting the art of plastination at SMC, which would enable instructors to create an identical, non-toxic, plastic replica of any biological specimen for use in their classes.

Comment: The Joint Academic Senate Sabbaticals/Fellowships Committee is recommending that the Board of Trustees approve the sabbaticals listed above. The collective bargaining contract with the Faculty Association requires the District to fund the equivalent of eight semesters of sabbaticals each academic year.

SUBJECT: **CHANGE ORDER NO. 10 – THEATRE ARTS RENOVATION**

SUBMITTED BY: Superintendent/President

REQUESTED ACTION: It is recommended that the Board of Trustees approve Change Order No. 10 - TURNER CONSTRUCTION COMPANY on the Theatre Arts Renovation Project in the amount of \$1,344,436.

Original Contract Amount	\$13,053,000
Previously approved Change Orders 1-9	744,697
Change Order No. 10	<u>1,344,436</u>
Revised Contract Amount	\$15,142,133

Original Contract Time	425 days
Previous Time Extensions	<u>44 days</u>
Revised Contract Time	469 days
Time Extension this Change Order No. 10	<u>220 days</u>
Current Revised Contract Time	689 days

FUNDING SOURCE: Measure U

SUMMARY: Change Order No. 10 provides for resolution of outstanding claims made by the General Contractor which will result in timely completion of the project. The claims are for direct costs of construction and time extension requests. This agreement resolves all outstanding and potential time extension claims which will limit the District's liability for additional contractor overhead cost. There are expected to be additional change order requests which will be limited to the direct costs of the materials and labor.

The contractor claims that most of the additional costs are due to incomplete and inaccurate plans as provided by the architect. The District will be working separately with the architect to resolve these issues.

SUBJECT: **APPROVAL OF PAYMENT FOR ARCHITECTURAL SERVICES – NEW MUSIC AND PERFORMING ARTS CENTER (MADISON THEATER)**

SUBMITTED BY: Superintendent/President

REQUESTED ACTION: It is recommended that the Board of Trustees authorize payments to RENZO ZECCHETTO ARCHITECTS for architectural services associated with the NEW MUSIC AND PERFORMING ARTS CENTER (MADISON THEATER) project to reflect architectural fees based on ten (10) percent of the construction bid award of \$30,780,000, less \$2,865,000 for remodel costs, for a total base fee of \$2,791,500 plus reimbursable expenses. The total payment from the District Measure S is not to exceed \$1.58 million.

FUNDING SOURCE: SMC Foundation/Measure S

SUMMARY: The County of Los Angeles Department of Education needs an updated action by the Board of Trustees stating the amount of the contract so that payments can be made from bond funds. The original action of the District taken in 2001 did not state the amount of the bid award for construction since the bid did not get awarded until 2005. This updates the public action with a cap on expenses and an agreement not to have further adjustments for change orders.

SUBJECT: **PROPERTY AT PICO BOULEVARD AND 14TH STREET**

SUBMITTED BY: Chair, Board of Trustees

REQUESTED ACTION: It is recommended that the Board of Trustees direct staff to enter into discussions with the YWCA of Santa Monica and the City of Santa Monica in consideration of a partnership to develop a project on the District-owned property located at Pico Boulevard and 14th Street that would serve the community through Santa Monica College and the YWCA.

SUMMARY: SMCCD bought the property located at Pico Boulevard and 14th Street six years ago planning to build a literacy center. These plans are outdated and a number of the proposed functions factored into other projects.

At the time the college purchased the property, the YWCA was also interested in it for its programs. At this time, it is believed that there are a number of uses that can serve both entities. The options may include provision of housing for the YWCA's program for individuals over 18 who have been in foster care. There may be opportunities in the scenarios to be developed for funding from the City's varied resources. A similar direction will be requested at the City Council meeting and the YWCA Board of Directors.

FISCAL: No fiscal implications at this time.

RECOMMENDATION NO. 24

SUBJECT: **RECEIPT OF PERSONNEL COMMISSION PROPOSED
2006-2007 BUDGET**

SUBMITTED BY: Superintendent/President

REQUESTED ACTION: It is recommended that the Board of Trustees acknowledge receipt of the 2006-2007 proposed budget for the Santa Monica Community College District Personnel Commission. The Personnel Commission Budget will be discussed as part of the District’s regular budget process.

SUMMARY: The budgeted amount for Consultants remains the same to reflect the desire of the Personnel Commission to continue to contract with the Hay Group for formal implementation and delivery of the classification and compensation study of the College’s classified positions and salary survey results, including presentations at meetings with CSEA leadership and District Administration as necessary.

The amount budgeted for Legal Fees remains the same as that budgeted for fiscal year 2005-06. This amount will ensure that there is adequate funding to cover potential and unanticipated legal expenses.

The salary and benefits budget is estimated assuming full staffing using actual salaries and projected salaries.

The proposed budget will be presented for formal action at the next regular session meeting of the Personnel Commission in May. An invitation will be sent to the Board and District administration, and the leadership of CSEA to attend and present their views.

Chair Linda Sullivan announced that the terms of several members of the committee will be expiring and asked if those members would like to continue serving. However, it was pointed out that some members had already served two two-year terms and it was believed that no member could serve more than two terms. The Chair requested clarification and follow up on the matter of the expiration of members' terms since certain members who have served two two-year terms indicated that they wish to be reappointed.*

5. REPORTS and DISCUSSION (reports received with agenda)

Measure U Construction Projects Timeline and Projects Expenditure Report

- Five Measure U projects are in progress – Theater Arts Renovation, (H), Liberal Arts North (I), Music Complex (J), Liberal Arts South (K), and North Quad Plaza (M). Theater Arts and Liberal Arts North are near completion and will be occupied in fall 2006. Liberal Arts South started in January and should be completed this time next year. The North Quad Plaza is in the planning stages. The Infrastructure and Safety (Q) includes moving the information processing department from the third floor of Drescher Hall to the first floor.
- Projects currently on hold because of timing and lack of funds are: Science Complex addition (P), 14th and Pico (T). The increased costs of construction will not allow all Measure U projects to be funded. The decision was made to continue with current projects as they were intended to be built and cut from the projects down the list. The college is still committed to building the Science Complex addition and will look for state funding. The project at 14th and Pico is on hold, and the college is looking at cooperative projects with other agencies. It is currently being used as a staging site for the construction projects on campus.
- Shuttle Replacement Parking (L): The college is looking at property options. The amount budgeted for parking in Measure U does not include enough for the acquisition of property. There are other alternatives to using Measure U funds, such as a Certificate of Participation (COP) or combining it with Measure S projects. The college has looked at renting space on a temporary basis, but facilities that have 400 spaces available during the daytime hours are very limited. The civic center parking is an option.
- The Student Services Building (O) is currently being reviewed by the State for funding.

Measure S Construction Projects Timeline and Projects Expenditure Report

- The Performing Arts Complex project is on schedule.
- Athletic Fields Phase I, Corsair Field project (I): Planning for Corsair Field and underground parking includes a feasibility study currently underway. This project will address the concerns of the college and the community to help correct a historical parking deficiency on the campus. A progress report, including plans for community input, will be made at the next meeting.
- Measure S includes \$25 million for Malibu Site acquisition and facility (6). The college is looking at two properties in Malibu (both in the Civic Center area).

6. PUBLIC COMMENTS

None

7. ANNOUNCEMENTS

- Dr. Chui L. Tsang, Superintendent/President, thanked everyone for being a part of this very important committee. He added that the district faces a number of challenges, needs to think strategically and prioritize the projects with the remaining bond funds. Parking continues to be a challenge and short-term, mid-term and long-term solutions need to be determined. There are transportation and parking issues created for students with classes at the off-campus sites which make it more difficult for students to complete their education.
- Chair Linda Sullivan announced that Joe Weichman has submitted his resignation from the Citizens' Bond Oversight Committee.

8. ADJOURNMENT – 9:14 a.m.

The next meeting of the Citizens' Bond Oversight Committee will be held on Wednesday, July 19, 2006 at 8 a.m. in Business Building Room 111, Santa Monica College.
