BroadStage Artist Residency Documentary Series

BroadStage and **Santa Monica College's Media 21 Class**, taught by Emmy-nominated filmmaker and educator Roxanne Messina Captor, partnered to create a series of documentary shorts chronicling Stanley Clarke's Artist Residency.

2023-24: Rhythm & Harmony

"Rhythm & Harmony," introduces Stanley Clarke and his Artist Residency with BroadStage. The documentary provides an insider's perspective on the Artist Residency as it developed in the first semester at SMC, and is packed with behind-the-scenes moments, anecdotes from Stanley, and more.

BroadStage Artist Residency Documentary Series

2024-25: Rhythm of the Future

An official selection of the 2025 Newport Beach Film Festival, "Rhythm of the Future," is a captivating exploration of Clarke's mentorship and features inspiring interviews with students and band members. The film offers a glimpse into the evolution of young talent under Clarke's guidance in the second year of the residency, with performances from Stanley Clarke's 4 Ever Band and BroadStage's Future Sounds of Jazz Festival.
