Budget	<p>13. Include in budget planning the additional staffing, training, and equipment needed to adequately maintain new buildings with more complex systems and increased square footage as they come on line.</p> <p>14. **Ensure an appropriate level of technology, equipment, and facilities maintenance and support is included in the district budgeting process every year.</p> <p>15. Many old records are inaccessible and/or inappropriately stored. Units whose functions and responsibilities require records to be kept should have a plan to sort, weed out, digitize and appropriately store records. The institution should explore options for document scanning and storage as well as off-site storage of items which require only intermittent access.</p> <p>24. **Explore strategies for encouraging and training future leadership at all levels of the institution.</p> <p>25. **Explore the efficacy of and the efficiencies to be achieved by creating a student account system.</p> <p>26. **Revisit the idea of college credit cards (for selected staff and functions) to improve efficiency and timeliness as not everything can be effectively accomplished within current processes (ex: on-line purchases).</p>

Master Plan for Education – Institutional Objectives, 2012-2013

Number	Proposed Institutional Objective to be Developed
#1	To identify and implement strategies to assist programs in maintaining a web and social media presence.
#2	To provide training in the assessment of outcomes and in documenting how the assessment results are used in program planning.
#3	To ensure that there are consistent student lab use tracking systems to document the required student lab hours and to provide data for studying the correlation between student achievement and use of lab resources, both in the lab and through remote access to the online materials.
#4	To identify additional strategies, based on student equity data, to improve the success and retention of Latino and African-American students, as well as students from other historically underrepresented groups.
#5	To develop planning criteria for determining the allocation of dedicated resources to specific programs and whether these resources are sustainable.
#6	To develop a plan for defining, organizing and institutionalizing the GRIT (Growth, Resilience, Integrity and Tenacity) strategic initiative. This initiative should facilitate student achievement through a College-wide focus on non-cognitive skills (e.g. integrity, perseverance, goal-setting, and help-seeking behaviors), on supplementing competencies supporting ILO #1, and on supporting students' aspirations for their futures.
#7	To develop a plan for how to assess the strategic initiative GRIT, with a focus on assessing students' acquisition of non-cognitive skills. The assessment should be tied to traditional metrics used to measure student success, e.g. grades, transfer, completion, improved academic honesty, etc. The College will run a pilot ETS study on the acquisition and assessment of students' non-cognitive skills as one mechanism to inform this plan.
#8	To develop a plan for organizing and institutionalizing a strategic initiative called I ³ (Institutional Imagination Initiative) to harness the creative power of the college community to rethink how the college can analyze and address issues through responsive engagement and facilitate continuous dialogue among the college community. The intent is to solicit and implement innovative ideas for improving and supporting student achievement.
#9	To develop and begin implementation of a plan for the SMC Teaching and Learning Center in order to expand institutional capacity to support creative efforts that generate innovative pedagogies, foster professional development, and increase student success.
Institutional Objectives – Continued from 2011-2012	
#10	To reduce the operating deficit through expenditure savings and increased revenues while maintaining, as a minimum, a 5 percent unrestricted general fund balance.
#11	To create a workgroup/subcommittee comprising representatives of the Academic Senate Joint Professional Development Committee, the CSEA Professional Development Committee, and the Management Association to prepare a college-wide plan that includes all staff development activities, including mandatory training.
