

# AZURE VIRTUAL DESKTOP (AVD) ON CHROMEBOOK

**Note 1:** Please ensure your Chromebook has the latest updates installed before following these instructions.

**Note 2:** The instructions will work only on Chromebooks that support Android Apps. **If your Chromebook does not support Android Apps**, please use the WebApp using Chrome: <https://rdweb.wvd.microsoft.com/webclient>

## INSTALLATION

## CONFIGURATION

The screenshot shows the 'Workspaces' tab selected in the Remote Desktop Client. The interface includes a top bar with a '+' icon, a main area with 'Add PC' and 'Add Workspace' buttons, and a bottom dock with 'PCs' and 'Workspaces' icons. A green callout points to the RD Client icon in the dock.

2. Click on the + at the top right of the app.

1. Open Remote Desktop Client, and select the "Workspaces" tab at the bottom of the app

3. Select "Add Workspace"

Pin the RD Client, if you wish

The 'Add Workspace' dialog box is shown with a text input field containing an email address, a 'NEXT' button, and a 'WORKSPACE URL' field. A callout box provides an alternative URL.

4. Enter your SMC email

6. Next

last\_first@student.smc.edu

A workspace is associated with this email address.

WORKSPACE URL

https://rdweb.wvd.microsoft.com/api/arm/feeddiscovery

5. If a Workspace URL is not associated, instead of your email please enter:  
**https://rdweb.wvd.microsoft.com/api/arm/feeddiscovery**
