

Walk your friends home with SafeWalk

- A feature of the LiveSafe App -

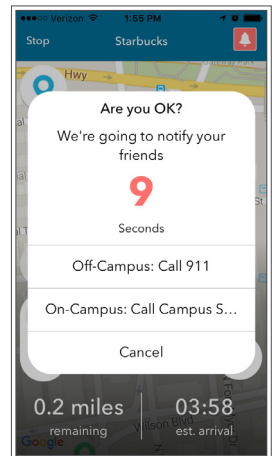

Invite friends and family to see your location on a map.

Give them peace of mind by letting them know when you make it to your destination safely.

Once you invite a friend, you can chat with them while you walk.

Let them know if you see something suspicious or just chat about your day.

Call 911 directly from the app if you see something suspicious.

Safety personnel will immediately know your location and can send help.
